Long Vowels - B: Teacher Directions

Say: We are going to listen to long vowel sounds. We will do the sample together. Look at the picture of the **tape** at the top of the page. Look at the three words next to the **tape**. Raise your hand if you can tell me which of the three words is the word **tape**.

Call on a student and encourage a reply.

Say: That's correct. You should mark the circle under the last word because the last word is the word **tape**.

Now you will do some more on your own. Look at the pictures. Then look at the three words. Mark the circle next to the word that names the picture.
